ASSIGNMENT-5

AIM: To create a web dashboard to take user input for scheduling the pump controller (date & time). store the data in the Cloudant DB.

Node-RED Flow:

PROGRAM:

```
import wiotp.sdk.device
```

```
import time
```

```
import ibm_boto3
```

```
from ibmcloudant.cloudant_v1 import CloudantV1
```

```
from ibmcloudant import CouchDbSessionAuthenticator
```

```
from ibm_cloud_sdk_core.authenticators import BasicAuthenticator
```

```
authenticator = BasicAuthenticator('apikey-v2-  
1clsu5d5mnq5g4enmfd6flwzyl5c1ubkuwiwp5jbl9lv',  
'bf9e839a06af9bfcf891e583565211c2') #username, password
```

```
service = CloudantV1(authenticator=authenticator)
```

```
service.set_service_url('https://apikey-v2-  
1clsu5d5mnq5g4enmfd6flwzyl5c1ubkuwiwp5jbl9lv:bf9e839a06af9bfcf891e5835652  
11c2@91b010f0-d17e-478b-95a8-7ca76d82b32d-  
bluemix.cloudantnosqldb.appdomain.cloud')
```

```
myConfig = {  
    "identity": {  
        "orgId": "udbkdj",  
        "typeId": "fourth_device",  
        "deviceId": "Ziggy4"  
    },  
    "auth": {  
        "token": "8042100942"  
    }  
}
```

```
def myCommandCallback(cmd):
```

```
    d = cmd.data["Date"]
```

```
    t = cmd.data["Time"]
```

```
    products_dc = {
```

```
        "Date" : d,
```

```
        "Time" : t
```

```
    }
```

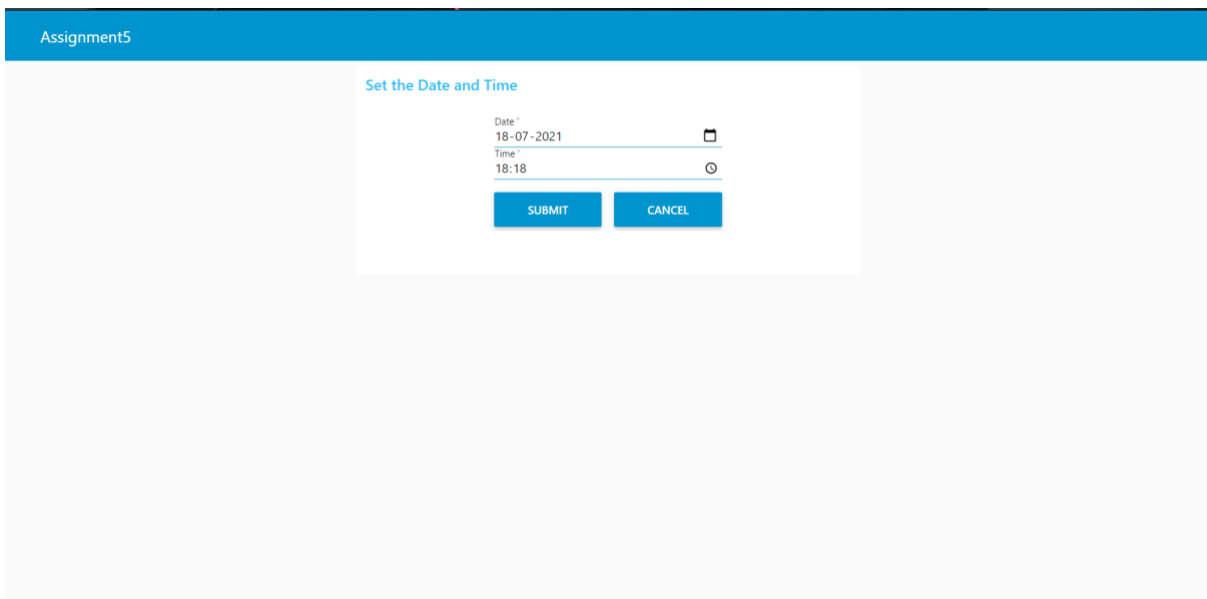

```
response = service.post_document(db='sampledb1',  
document=products_dc).get_result() #db = database name  
  
print(response)
```

```
client = wiotp.sdk.device.DeviceClient(config=myConfig, logHandlers=None)  
client.connect()
```

```
while True:  
    client.commandCallback = myCommandCallback  
    time.sleep(2)  
client.disconnect()
```

SIMULATION:

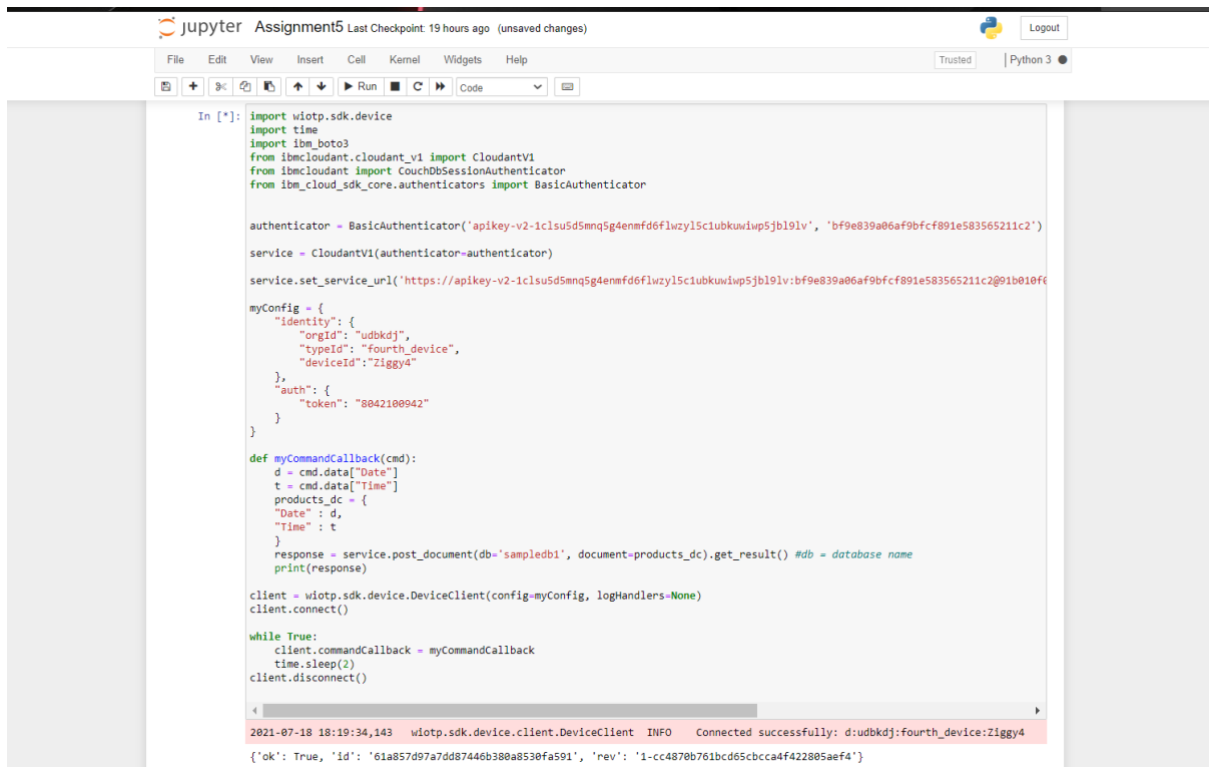

Web Dashboard:

The screenshot shows a web dashboard with a blue header bar labeled "Assignment5". Below the header, there is a light gray background. In the center, a white dialog box titled "Set the Date and Time" is displayed. The dialog contains two input fields: "Date" with the value "18-07-2021" and a calendar icon, and "Time" with the value "18:18" and a clock icon. At the bottom of the dialog, there are two blue buttons labeled "SUBMIT" and "CANCEL".

Input given by the user from the web dashboard

Pyhton(jupyter notebook):

```
In [*]: import wiotp.sdk.device
import time
import ibm_boto3
from ibmcloudant.cloudant_v1 import CloudantV1
from ibmcloudant import CouchDbSessionAuthenticator
from ibm_cloud_sdk_core.authenticators import BasicAuthenticator

authenticator = BasicAuthenticator('apikey-v2-1clsu5d5mnq5g4enmf6flwzyl5ciubkuwlp5jbl9lv', 'bf9e839a06af9bfcf891e583565211c2')
service = CloudantV1(authenticator=authenticator)
service.set_service_url('https://apikey-v2-1clsu5d5mnq5g4enmf6flwzyl5ciubkuwlp5jbl9lv:bf9e839a06af9bfcf891e583565211c2@91b010f6...')

myConfig = {
    "identity": {
        "orgId": "udbkdj",
        "typeId": "fourth_device",
        "deviceId": "Ziggy4"
    },
    "auth": {
        "token": "8042100942"
    }
}

def myCommandCallback(cmd):
    d = cmd.data["Date"]
    t = cmd.data["Time"]
    products_dc = {
        "Date": d,
        "Time": t
    }
    response = service.post_document(db='sampledb1', document=products_dc).get_result() #db = database name
    print(response)

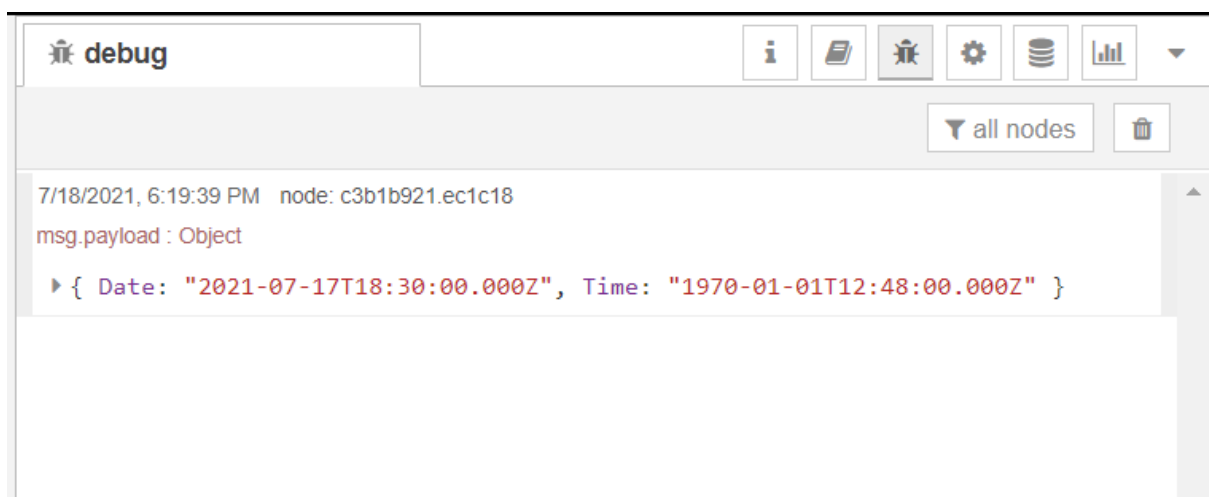

client = wiotp.sdk.device.DeviceClient(config=myConfig, logHandlers=None)
client.connect()

while True:
    client.commandCallback = myCommandCallback
    time.sleep(2)
client.disconnect()

2021-07-18 18:19:34,143 wiotp.sdk.device.client.DeviceClient INFO Connected successfully: d:udbkdj:fourth_device:Ziggy4
{'ok': True, 'id': '61a857d97a7dd87446b380a8530fa591', 'rev': '1-cc4870b761bcd65cbcca4f422805aef4'}
```

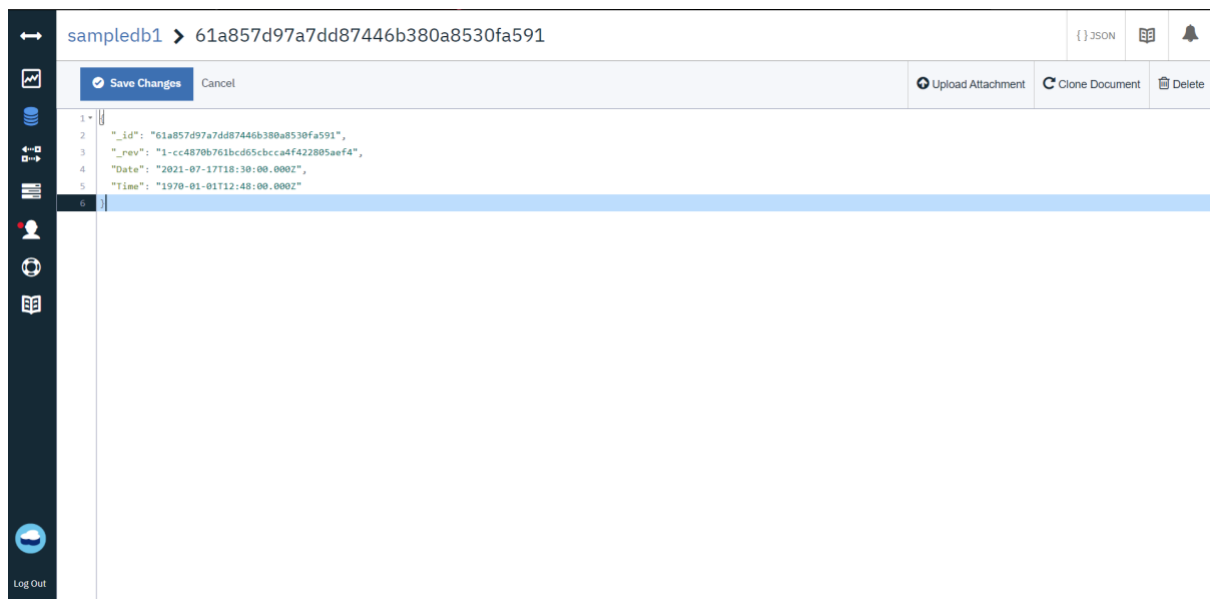

Creating a document with the data in cloudant DB using the python code

Debug in Node-RED:

Msg can also be seen in the Node-RED debug menu

Document created in cloudant DB:

A document is uploaded to the cloudant DB with the given input of Date and Time.

RESULT: Hence, a web dashboard has been created to take user input for scheduling the pump controller (date & time). And a document has been created and stored in the cloudant DB with the input date and time data.
